UPDATED LIBRARY/MEDIA CENTER AND COMMONS

- A contemporary and expanded library/media center will be incorporated, allowing best practices for student research and use.
- Resource centers for academic departments will be centrally located near the library/media center to allow more convenient, efficient student use and collaboration.
- A new multi-purpose commons area connects the north and south wings of the building. It is a flexible space which connects library/media center, student commons, and dining spaces.
- Small group conference rooms and library classrooms provide spaces for individual learning, conferencing and collaboration.
- An adjacent media production center is located for ease of student use and enables access to technology integrated with the library/media center.

IMPROVED SAFETY AND SECURITY

- After hours, by isolating into zones, the library/media center and commons can remain open for student use, while the rest of the building remains secure.

ENHANCED COMMUNITY USE

- The library/media center and commons will be available for community use after hours.
