

Seniors:

August 2010

If you are planning to apply to one of the following colleges and would like to be considered for one of their highly selective scholarships, please email Mrs. Gleason at jgleason@lfschools.net or stop by the College Resource Center when classes resume. You must submit a personal resume detailing your activities both in and outside of the high school, involvement in community service, leadership positions held and awards received.

The majority of these scholarships allow for one student to be nominated by their high school to compete for these prestigious awards. They seek students who excel both in and out of the classroom, who have a proven commitment to community service and who demonstrate strong leadership skills.

To be considered, you must submit your resume by Friday, September 10th and must indicate which scholarship(s) you wish to be considered for. A committee, comprised of Lake Forest High School faculty, including counselors and administrators, will meet to select the individuals they feel best meet the ideals of each scholarship.
